

**Press Release**

**Berlin, February 2020**

## SUPERBOOTH20 at FEZ Berlin

SUPERBOOTH20 will show all the latest developments in the fields of electronic musical instruments, synthesizers, audio effects, drum computers, music software and all sorts of bizarre and innovative products from April 23-25. About two hundred exhibitors from all over the world will bring the latest developments for the production of electronic music to Berlin.

Most of the exhibitors of the last few years are also represented at the fair this year, the list ranges from Ableton to Zoom, from small to large and from analog to digital. Visitors can also look forward to seeing new faces. Among the newcomers are Noise Engineering and Supercritical Synthesizers, from the modular synthesizer segment, Chase Bliss from the guitar effects segment and Bettermaker from the outboard segment and many more. For the exhibitor area additional space has been rented in the FEZ Berlin. A daily updated list of exhibitors can be found [here](#). There are also new event areas in the outdoor area, especially for not-for-sale electronic musical instruments and installations - curated by Adam Chalk from the [Galerie GH36](#) in Berlin Mitte.

### Program

You can already get an impression of the final concert program by looking at the artists who have already been confirmed. Four large stages offer an exciting mixture of the whole range of electronic music until late in the evening. A special experience is provided by the seaside stage, which will be equipped with a 3D sound system from [NewAudioTechnology](#) this year. One of the best theremin players in the world - **Carolina Eyck** - will be demonstrating her skills on it.

- The first day promises to be a great experience already - with an experimental set by **Headless Horseman**, followed by the concert of the British EBM band **Nitzer Ebb** on the seaside stage. At the end of the day Techno veteran **Surgeon** will play in the big K1. Also already confirmed is a performance by **Emika** - she combines her skills as sound designer, classically trained composer and versatile singer and songwriter.

- On Friday the seaside stage will be very lively with **T.Raumschmiere & FuCKetYbUcKetY**. Also on the seaside stage **Cosmin TRG** shows his skills. Besides further concerts of **Nguyễn + Transitory** and **Kamikaze Space Programme** Bernard Rasinger shows an extraordinary laser performance - controlled by his modular system.
- On Saturday, **MATTHS** will play (slightly) quieter tunes on the seaside stage, before **Lady Starlight** performs uncompromising techno. Not to be missed is the A/V show of **hackedepicciotto** with Alexander Hacke (Einstürzende Neubauten) & Danielle de Picciotto and the concerts of **Swarm Intelligence** and **Kitmun**.

This is just a small selection of this year's concerts at **SUPERBOOTH20**. On the official homepage new names and times are added constantly, you can find them [here](#).

## Education Program

The Education area offers a varied program that brings several school classes and other interested participants closer to the world of electronic sound production and composition. This area is supported by the [Miller-Zillmer Foundation](#).

[Gammons Modular Synthesizer Ensemble](#) introduces students to the topic with a dozen smaller modular systems. Together they develop a composition that the school classes perform daily between 1:30 and 2:00 pm in the auditorium. In addition, [Leaf Audio](#) offer a workshop on soldering the *Microphonic Soundbox*. The team of [Selbstgebaute Musik](#) invites for a workshop with the *Instrumentenautomatenorchester*. And the organizers are also pleased to announce the cooperation with the [Elbphilharmonie Hamburg](#), who will offer the workshop *Creative Sound Safari*.

## Boat shuttle

The boat shuttles take the passengers to the FEZ in the morning and back to Berlin Mitte in the evening after the event. But by leaving **SUPERBOOTH20** the music doesn't have to stop yet - for the return trips to Berlin Mitte there are concerts and DJ sets on some of the boat shuttles. In order to experience these exclusive events on the river Spree, it is recommended to book your ticket online in time.

The return trips end near the Jannowitzbrücke. From there it is only a few minutes' walk to the nearby official **SUPERBOOTH20** parties at **OHM, Melancholie 2** or **C-Base**.

**SUPERBOOTH20** now has its own **online shop**: In addition to the intended significant simplification in purchasing additional trade fair services, there are already some of the popular **T-shirts** and **other merchandise** available: [shop.superbooth.com](http://shop.superbooth.com)

**Pictures from last year's event can be found here: [SUPERBOOTH19](#)**

A large part of the video documentation of our concerts and events from previous years can be found here: [Vimeo](#) or [Youtube](#).
